

Remarks

Claims 13, 25-29, 33 and 34 and new claims 49-60, appear in this application for the Examiner's review and consideration. The new claims have been added to define more clearly the scope of protection sought by the present application. Support for these new claims can be found in the specification, figures and claims as originally filed, for example at FIG. 8, page 12, lines 9-22, page 12, lines 26-30, page 13, lines 9-11 and page 17, lines 20-25. The new claims also read on the elected species III (FIG. 6).

In addition, Applicants have submitted herewith a substitute specification that expressly incorporates disclosures that was previously incorporated by reference. For the Examiner's convenience, Applicants adopted the paragraph numbering from United States Patent App. Pub. App. No. 2005/0115637, which is the published version of the present application. In particular, the table below cross-references the newly incorporated paragraphs (underlined in the marked-up substitute specification) with the references supporting same.

Newly Incorporated Paragraphs	Sources

The substitute specification has been provided with both markings and in a clean version. As provided, the substitute specification, amended and new claims do not introduce any new subject matter into the present application, and their entry at this time is respectfully requested.

Claims 13, 25-29, 33 and 34 were rejected under 35 U.S.C. §112, first paragraph, as failing to comply with the enablement requirement for the reasons stated on page 2, of the final Office Action. The Examiner asserts that the claims contain subject matter that was not
